## Design · Student Agency & Engagement Student Leadership

How will students exercise leadership within your school? To answer that question, engage students directly.

## Step 1 - Research

With students in the lead, sketch out a preliminary plan for a student voice and leadership approach that could work for your school.

- How would students be involved in a wide array of decisions, from the smallest to the largest and most consequential?
- How can all students, not just a few, have a voice in decisions that affect them?
- How will adults support students to develop knowledge and skills for successful leadership?

## **Step 2 - Reflect**

Share the plan with your team and discuss these questions:

• What would you need to put in place to implement the plan? Student representation on your school's governing or advisory board? A student voice committee? Something else?
