Original thinkers for an uncertain world

- Take risks
- Be nimble
- Look for options
- Think big
- Be forerunners, not followers
- Build on global learning
- Be aware of new opportunities and careers
- Become leaders in a more just and equitable society
- Respond to changing circumstances with new solutions
- Understand global forces such as automation
- Globalization
- Dislocation
- Meet the needs of: Environment, Energy, Industry, Consumers

Imagining new possibilities for oneself and others.
